

Genesis Gateway

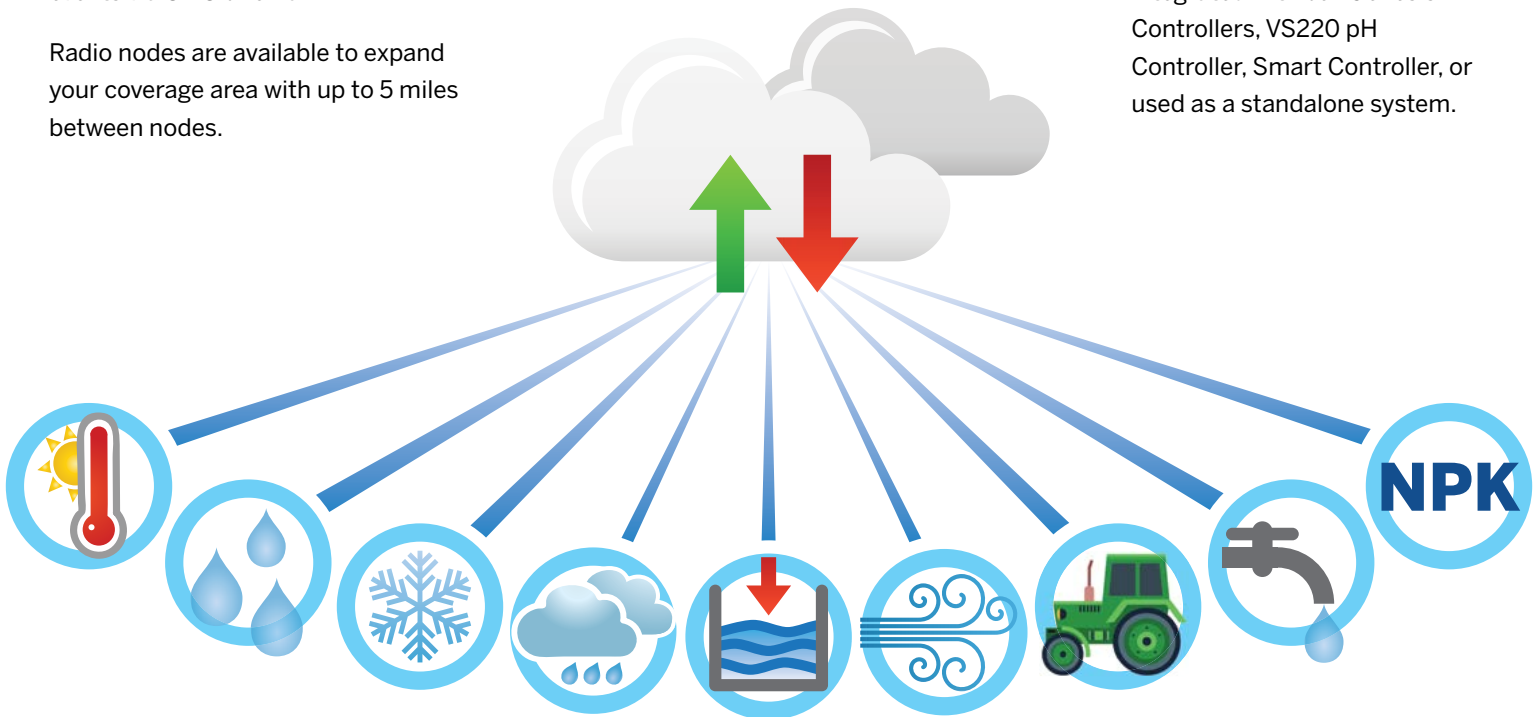

Versatile gateway for cloud-based connectivity

The Genesis Gateway enables cloud-based monitoring and control of your operation. Connections can be made via cellular, ethernet or wi-fi, from any internet-capable devices including smart phones, tablets, laptops and desktops.

Receive notifications of specified events via SMS or email.

Radio nodes are available to expand your coverage area with up to 5 miles between nodes.

The Genesis Gateway can be integrated with our Genesis Controllers, VS220 pH Controller, Smart Controller, or used as a standalone system.

Features

- 8 Universal Inputs
- 2 Isolated Inputs
- 2 Analog Outputs
- 2 Relay Outputs
- 4 Discrete Outputs
- MODBUS
- Micro SD Storage
- Built in Solar Charger
- Radio Network Capable
- Battery Backup

Connectivity Includes

- pH Monitoring
- Storage Tanks
- EC Monitoring
- Temperature
- Humidity
- Water Flow
- Water Usage
- Water Pressure
- Soil Moisture
- Fertigation
- Irrigation
- Wind Speed / Direction
- Pond / Reservoir Level
- Radio Network
- And More!
